

Response to OASIS Administrator on the OSLC Requirements Management PS 01 edits for the Candidate for OASIS Standard submission (to be published as PS 02)

Andrii Berezovskyi, OSLC OP PGB co-chair, 2021-05-20

Comment	Comment Item	Resolution	Material change
No. 1 from Paul Knight	(1) The four references to OSLC Core (in the References section, at https://docs.oasis-open-projects.org/oslc-op/rm/v2.1/ps01/requirements-management-spec.html#references) all point to old (May 2018) documents, instead of the updated documents (September 2020, at https://docs.oasis-open-projects.org/oslc-op/core/v3.0/ps01/oslc-core.html). It would probably be best to use the "Latest stage" URI references, like https://docs.oasis-open-projects.org/oslc-op/core/v3.0/oslc-core.html .	<p>Comment item is accepted.</p> <p>References updated:</p> <ol style="list-style-type: none">1) “OSLCCore3”2) “OSLCCoreVocab”3) “OSLCResourcePreview”4) “OSLCShapes”5) “LDPPatch” (status and publisher corrections only) <p>OSLCCore2 is not updated as it’s referenced for historic purposes. Reference across Parts of the specification were also updated to the same format as the Latest Stage.</p> <p>Exact changes can be seen in https://github.com/oslc-op/oslc-specs/pull/487/files</p>	NO

Comment	Comment Item	Resolution	Material change
No. 1 from Paul Knight	(2) Review use of keywords and their capitalization, references from the Conformance section (Conformance Clause IDs).	<p>Comment item is accepted.</p> <p>Keywords and the presence of Conformance Clause IDs in the statements containing the keywords were reviewed and updated in the following parts. Part 1: N/A; Part 2: N/A; Part 3:</p> <ol style="list-style-type: none"> 1) §3.1: References CC-1, CC-2, CC-3, CC-4 were added. 2) §3.2: References CC-8, CC-9 were added. 3) §4: References CC-13, CC-14, CC-15, CC-16 were added. 4) Machine-readable files: CC-5, CC-6, CC-7, CC-10, CC-11, CC-12 were added. 5) The corresponding sections with added Conformance Clause references were made normative to account for clauses. 6) The conformance clauses table in §2 was updated to reflect the changes. <p>All Conformance Clause references were added for the existing normative statements that readily used appropriate RFC keywords.</p> <p>Exact changes can be seen in https://github.com/oslc-op/oslc-specs/pull/487/files</p>	NO
